# npIX Update

Binay Bohra, Chairman

Nepal Internet Exchange

binay@vianet.com.np, info@npix.net.np

SANOG 12 - 13 August 2008, Kathmandu, Nepal

# NPIX

- NPIX is Nepal Internet Exchange
- Membership based organization(10)
- Currently operates two non-connected switches.
- Established in 2002.
  - had our 5 years party last year.

# Traffic Stats

- We crossed 40Mbps on regular basis for the last few months.

- NT capacity upgrade should see some impact.

- In aggregate we see about 35 Mbps of traffic through NPIX
  - No specific reason noted for traffic burst.

# Routing / Other

- All Members use BGP, no more static routes.

- Open Peering, optional Route Server

- 17 ASNs visible at npIX currently

- Host .np secondary server

# Today and this week

# This month and year

# New stuff

- Operation of Second switch in different part of town  being discussed

- Power is a bigger problem right now
- For future plan, regional exchanges being planned in other geographic location of the country. Not connected to each other.

# Thanks
