F-Root/SANOG Update

Peter Losher, Operations Engineer

Internet Systems Consortium (ISC)

SANOG 16, Paro, Bhutan

1

What is F-Root?
(f.root-servers.net)

- One of the 13 DNS root servers

- Mirror nodes area located worldwide

- 14 in the APNIC region; thanks to APNIC for their support.

- 3 the SANOG region:
  - Dhaka, Bangladesh
  - Chennai, India
  - Karachi, Pakistan
  - <watch this space>

2

What's new?

- IPv6 access/reachability
- Signed Root
- Root Zone expansion (new gTLD's & IDN zones)
- New APNIC-sponsored node (Phnom Penh, Cambodia)

Thanks!
