Introduction

- SANOG was started to **bring together operators for educational as well as co-operation.**
- SANOG provides a **regional forum to discuss operational issues and technologies** of interest to data operators in the South Asian Region.
- The main objective is **educational**, but at the same time **gives vendors a chance to talk to engineers about newer technology and products** on the sidelines.
- **Engineers get to talk to each other about experiences**, benefit the entire community.
- This **non commercial people networking** is in line with established practices like NANOG in North America, RIPE Meetings in Europe and APRICOT in Asia- Pacific.

The logo for SANOG (South Asian Network Operators' Group) features the word "SANOG" in a bold, white, sans-serif font. The text is centered within a black rectangular box. This box is positioned inside a larger white circle that has a thick, dark blue border. The background around the circle is white with some faint, greyish splatters or textures.
